Summary

Keyuan (National U. of Singapore) describes the establishment and development of the marine legal system of the People's Republic of China, placing it within the context of the broader law of the sea as codified in the 1982 United Nations Convention. Drawing upon nearly ten years of research, the author covers such topics as innocent passage for foreign warships; the protection of marine nature reserves; and the management of offshore petroleum development. The final chapter is devoted to regulations currently under development that will govern China's activities in the Polar Regions. Keyuan is also the author of *Law of the Sea in East Asia: Issues and Prospects* (Routledge, 2005). Martinus-Nijhoff is an imprint of Brill. First Chapter Excerpts

The Story of Watergate's Deep Throat

By Bob Woodward

Simon & Schuster

Copyright © 2005 Bob Woodward

All right reserved.

ISBN: 0-7432-8715-0

In February 1992, as the 20th anniversary of the Watergate break-in approached, I went to the fortress-like J. Edgar Hoover FBI headquarters building on Pennsylvania Avenue in Washington. An imposing cement structure with large dark windows, the Hoover building sits appropriately about midway between the White House and the Capitol. It is as if Hoover, the founding director and the embodiment of the FBI from 1924 to 1972, is still present in Washington, D.C., playing off presidents against the Congress. I navigated the labyrinth of security and finally made my way to the documents room. I had come to examine some of the FBI's investigative Watergate files that had been opened to the public. Private cubicles are available in the classy, law-firm atmosphere, well lit, all done in high-quality wood paneling well above the standard government issue. The room is quiet. I was offered blue-lined paper to take notes.

The Watergate files contain hundreds of internal FBI memos, requests for action, investigative summaries, and Teletypes to headquarters from field offices which had conducted hundreds of interviews. There were the first summaries of information on the five burglars arrested in the Democrats' Watergate office building headquarters: their names, their backgrounds, their CIA connections, and their contacts with E. Howard Hunt Jr., the former CIA operative and White House consultant, and G. Gordon Liddy, the former FBI agent. The files teemed with notes, routing slips and queries bearing initials from senior Bureau officials, dates and intelligence classifications. The outline of the Watergate cover-up was so clear in retrospect. White House counsel John W. Dean III, who later confessed to leading the illegal obstruction of justice on behalf of President

Author Notes & Sketches

Amy Tan is the author of The Joy Luck Club, The Kitchen God's Wife, The Hundred Secret Senses, The Bonesetter's Daughter, and two children's books, The Moon Lady and The Chinese Siamese Cat, which has now been adapted as a PBS production, Sagwa, for which she is a creative consultant and writer. Tan was also a coproducer and co-screenwriter of the film version of The Joy Luck Club, and her essays and stories have appeared in numerous magazines and anthologies. Her work has been translated into more than twenty-five languages. She lives with her husband in San Francisco and New York

by title:

- [The opposite of fate...](#)

[MARC Display](#)**Publisher Weekly Review**

Tan's bestselling works of fiction are, in part, based on her own family history, and this robust book, her first nonfiction effort, explains much about where those stories came from and how they influenced her. The collection of "casual pieces" (previously published in such diverse venues as Harper's Bazaar, Ski Magazine, the New Yorker, Salon.com and even PW) covers Tan's childhood in California and Switzerland; her writing career; her relationships with her mother and her late editor, Faith Sale; and, most significantly, the role of fate in her life. Raised with "two pillars of beliefs" (Christian faith on her father's side; Chinese fate on her mother's), Tan finds luck both good and bad in all corners of her life. Ultimately, however, she knows "a higher power knows the next move and... we are at the mercy of that force." As she reflects on how things have happened in her 50-odd years, Tan's writing varies from poetic to prosaic. In an excerpt from a journal she kept during a 1990 trip to China, she eloquently describes Shanghai's streets: "Gray pants and white shirts are suspended from long bamboo poles that overhang the street. The laundry flaps in the wind like proletarian banners." But reading about Tan's adventures with her rock band, the Rock Bottom Remainders, feels a bit like reading someone else's high school yearbook's inside jokes, as she reminisces about truck-stop breakfasts and late-night sing-alongs. Still, this is a powerful collection that should enthrall readers of *The Joy Luck Club* and Tan's other novels. B&w photos. Copyright © Reed Business Information, a division of Reed Elsevier Inc.
